

YOUR GOAL NUMBER

By Carol Adrienne, Ph.D.

Each number of your birthdate and letter of your name tells a story. For example, by adding together your MONTH of birth with your DAY of birth, you will find the number that indicates a GOAL that your life path is leading you to.

To find your GOAL NUMBER, add the number of your MONTH (e.g., January = 1, February = 2, etc.) to your DAY of birth. Add again until you have one digit.

Mona's birth month is April (4) her day of birth is the 20th ($2+0=2$). Mona's Goal Number is $4 + 2 = 6$. Six indicates that Mona will experience a strong tendency to be in a position of responsibility. She will often choose to take care of the needs of others or teach them something useful. Her goal is to create a solid network of friends and family. To achieve this goal Mona will use charm, determination, practicality—sometimes putting others' needs ahead of her own. Mona must learn not to give advice unless people ask for it!

(The two numbers of your month and day define your goal a little more distinctly.)
